

MyFaith™

Product description

MyFaith is the convenient way to connect with your faith and review prayers, verses, holiday calendars and more right from your mobile phone. Get religious wallpaper and ring tones for six major religions including Buddhism, Christianity, Hinduism, Islam, Judaism & Sikhism. Review facts about religious leaders, gods, saints or other entities depending on your religion. With multilingual support in English, Español & Português, MyFaith offers the most complete set of mobile spiritual information

Sample screenshots

Using the application

1. Getting Started

From the application area of your phone, find and launch **My Faith**. You will see the splash screen. The first time you use the application you will be asked to choose your faith. Once the selection has been made the information for your chosen faith will be displayed every time you start the application.

2. Welcome

Items on the **Main Menu** screen are: **Prayer of the Day, Verse of the Day, Entity of the day (Title varies depending on faith), Calendar, Wallpaper, Preferences and Help.**

3. Choose Menu Item

Through the use of the Navigation key (usually a large 4-directional key), you can highlight individual menu items by pressing up or down on the key and execute the highlighted item by pressing the center of the Navigation key.

4. Reading

Once the reading type (Prayer, Verse, Saint of the day) is selected, the information is displayed on the next screen. Additional readings for your faith can be accessed from the main menu.

6. Ringtone

Select the wallpaper item to view the ringtone gallery for your faith. Press the center of the 4-directional navigation key to select the available ring tone for the month. Use the navigation key to play or save the selected ringtone and then press the center of the navigation key. The ringtone is saved to your phones media gallery. Exit the application to set it as your ringer.

6. Wallpaper

Select the wallpaper item to view the image gallery for your faith. Use the center of the 4-directional navigation key to select the available image for the month. On this screen you may personalize the wallpaper image by pressing the right soft key. Enter the text you wish to personalize your image and press the center of the navigation key. Your personalized wallpaper image will display on the next screen. Press the center of the navigation key/OK to save. The wallpaper is saved to your phones media gallery. Exit the application to set it as your wallpaper.

7. Preferences

Items on the **Preferences** screen are: **Languages, Faith and Phone Info**. Additional items depend on phone model and may include: **Daily Messaging** and **Promotions**.

a. Select Languages to change your language preference to English, Español or Português.

b. Select Faith to change your faith preference to Buddhism, Christianity, Hinduism, Islam, Judaism, or Sikhism.

c. Select Phone Info to change your phone number

8. Help

By choosing the **Help** item you will be directed to the help menu with specific information on how to use each feature of the application. Through the use of the Navigation key (usually a large 4-directional key), you can highlight individual menu items by pressing up or down on the key and execute the highlighted item by pressing the center of the Navigation key.
